

Identification Numbers

Record Product Identification Number

Each machine has its own unique Product Identification

Number (PIN). The PIN number is broken down as follows:

1	P	Y	5	1	1	5	M	#	M	E	4	0	1	3	7	6
WMC	Build Factory	Machine Series	Engine hp			Machine Family	Check Letter	Calendar Year	Factory Optional Information	Build Sequence						
		Model Number				Serial Number										

WMC: World Manufacturing Code.

Build Factory: represents manufacturing location.

Machine Series: represents machine series.

Engine hp: represents approximate engine horsepower.

Machine Family: represents overall machine configuration.

Check Letter: calculated based on values and positions of the other characters in the PIN.

Calendar Year: represents calendar year of manufacture (2010 = A, 2031: 1, 2040: A again).

Factory Optional Information

Build Sequence: represents the consecutive number of machines built with the same machine series through operator's station identifiers.

Serial Number: made up of an operator's station identifier and build sequence; example shown 401376.

Record Front Axle Serial Number

LV18529—UN—30JUL13

The serial number plate is on the rear side of the left-hand axle housing.

Front Axle Serial Number _____

HK75640,0001110-19-14SEP20

LV18519—UN—30JUL13

Product Identification Number (PIN) plate is on the right front support member of the machine.

Product Identification Number _____

LGCKF7U,0000C6C-19-11MAY21

Record Engine Serial Number (4.5 Liter 4 Cylinder Engine)

LV14644—UN—12AUG11

LV22864—UN—21AUG14

The serial number is placed in two locations. The plate is on the right-hand side of the engine block, behind the OCV filter bracket. The sticker is on the left-hand side of the engine to the right of the fuel filter.

Engine Serial Number _____

HK75640,0001111-19-14SEP20

Record Engine Serial Number (2.9 Liter 3 Cylinder Engine)

LV18530—UN—30JUL13

The serial number plate is on the right-hand side of the engine block, behind starter.

Engine Serial Number _____

HK75640,0001112-19-14SEP20

Record Transmission Serial Number

PULV000135—UN—22OCT07

The serial number plate is located behind the right-hand hitch lift arm on the differential housing.

Transmission Serial Number _____

HK75640,0001113-19-14SEP20

Record Cab Serial Number

APY40992—UN—10DEC20

The serial number label is located behind the operator's seat underneath the rear window.

Cab Serial Number _____

LGCKF7U,00008C6-19-14DEC20

Keep Proof of Ownership

TS1680—UN—09DEC03

1. Maintain in a secure location an up-to-date inventory of all product and component serial numbers.
2. Regularly verify that identification plates have not been removed. Report any evidence of tampering to law enforcement agencies and order duplicate plates.
3. Other steps you can take:
 - Mark your machine with your own numbering system
 - Take color photographs from several angles of each machine
